PURPOSE

Records Retention Schedule

Introduction

Under the Freedom of Information Act 2000, schools are required to maintain a retention schedule listing the records which the school creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

If there is an administrative need to keep a certain record for longer than that shown in the retention schedule then the school may do so (documenting the reason for such further retention).

The retention schedule refers to all information, regardless of the media in which they are stored.

Some of the retention periods are governed by statute. Others are guidelines following best practice. Every effort has been made to ensure that these retention periods are compliant with the requirements of the UK GDPR, Data Protection Act 2018 and the Freedom of Information Act 2000.

Managing record series using these retention guidelines will be deemed to be “normal processing” under the legislation mentioned above. If record series are to be kept for longer or shorter periods than laid out in this document the reasons for this need to be documented.

This schedule has been devised in association with the Records Management Society of Great Britain (Local Government Group).

This schedule will be reviewed on a regular basis.
